

Ever wish you could get **experienced financial** assistance to help unlock your business's **full potential**; without the cost of a full-time FD or CFO?

CONNECTIVE FINANCE

The most cost-effective way to access financial expertise

We connect you with experienced, flexible CFOs and FDs, taking out the wasteful downtime and the cost of recruitment; we ensure your business gets the expertise it needs at a price you can afford.

Our thinking is, why shouldn't every business be able to call on well-informed financial experts at every stage of its journey?

4 simple steps

1. VISION

You tell us about your plans, core values, pain points and existing finance structure. What do you need from our experts?

2. SPECIFY

We select two appropriate candidates from our network and send you their profiles to choose from.

3. CONNECT

We brief your chosen candidate on your business and set up a call for you to speak to them directly, ensuring each party is on the same page.

4. COMPLETE

Once you're happy to go ahead, we sort out the legal stuff and agree on a start date. You then deal directly with your appointed FD/CFO.

Flexible, cost-effective and tailored to your business.

Are you ready to get started?
